About This Game

In Your Realm gives an old-school, challenging, RPG roguelike experience with randomized encounters and a unique combat system.

To beat the game the player needs to plow through every weakness of their personality - represented in the game as different bosses in their respective worlds - to finally take on the ultimate challenge.

In Your Realm is in part a homage to classic titles such as Golden Axe, Mega Man and Zelda:

A link to the past, where focus lies on challenging and fun gameplay with good replayability. Each of every one of the hundred of unique monsters in the game offers their own set of attacks and behaviors. Every decent run grants the player rewards to spend to introduce new elements and buffs in the next run.

Altogether this makes every play a different experience.

Features:

- 100 unique monsters.
- Skill tree that evolves based on: spells found, skills aquired, attributes leveled, bosses killed and your playstyle.
- Armors and weapons, displayed on the character.

-
- Randomized labyrinth of rooms and encounters/rewards in them.
 - Characteristics gained by playing in a certain manner. These give specific bonuses/penalties in alignment with that playstyle.
 - Extra lives when progressing beyond the first boss (in easy and normal difficulties).
 - Activatable rewards after each decent run.
 - Diplomas recording your best stats for each difficulty, such as: rooms explored, monsters killed, block% etc.
 - Monsters fight back! (not mainly hack-n-slash or shoot-n-dodge gameplay)

This game is great! Full of awesomeness. You just sit with your buddy and die all the time.

9.7/10. This game is very fun when your bored but i wouldn't recciomend playing for 2 hours staright (which is what i did) because if you do it will get very boring very quick. Other than that though it is a very fun game similar to beat the boss with a unique and enjoyable way to unlock new weapons. This is a functional platform puzzler with amateur graphics, wrapped in a dumb theme and topped off with achievement spam. This game is built for a store algorithm, not for playing. You'll waste maybe 15 minutes actually interacting with it, then just leave it running for another three hours for the achievements, if you care. It's worth no more than the amount of money you wouldn't pick up if dropped.. Quick Slick Deadly is a brilliant little game that offers a lot of platformer elements in a space scroll-shooter setting. The 3 different classes that you can choose to play with enable 3 distinct experiences completely shifting the mindset (and skills) needed to master each section. Overall the game is very well thought through and balanced, has lots of great design ideas, and aims at those who love to master their skills at a game while still being accessible to all. Would highly recommend trying it out - and perhaps getting hooked on it!. I love this game! It's got simple game play that strikes a great balance between puzzle and twitch. The atmosphere is also great, especially for a retro game fan.. It's fun and cheap, and it runs at a good fps.. It's good, but not great, and It's sequel bait. The game is an interesting take on X-COM style combat and it's obvious from playing it that there's alot of thought put into it, but it's too easy and could of used a little more content.. O Melhor rpg que ja joguei
The Best rpg I played

MORE 1. im sick of the hackers in this game. The last one i played with "femidom" was lag switching and using god mode.

on the bright side I did once beat my dad at this game, but then he beat me, with his whips.

got me hard = Recommend

Just do it!. This is a casual game, which contains point and click and hidden-object components. It also has two modes. Normal mode caters for players that are more casual. The mode provides many hints, and important areas are always highlighted. Advanced mode on the other hand gives the player almost no hints.

There has been some improvement over the first Princess Isabella game, particularly in the art and design of backgrounds. The game's areas are more varied than its predecessors were. And it's very nice that this time around the witch decided to curse more than just a castle with similarly styled rooms! The ever-changing scenery also seems to have allowed this instalment to have more quirky characters than its predecessor does. Although I'm pretty sure those dwarves are living in a hobbit hole!

The only issue that arose for me when playing this game, as that I came to a puzzle that did not seem to let me manipulate the parts needed to complete it. Going back to title menu did not fix this. However, I found that changing the game between screen modes (Fullscreen, Widescreen and Windowed), seemed to allow the game to work out better where the mouse cursor was placed. So, there is an easy fix if you are to run into this issue.

I would recommend this game to people who enjoy these types of games. If you do not go into it looking for a life changing experience, and just enjoy it for what it is, then this is a fun little game, and worth playing. Bear in mind it is a little short, but worth the price, particularly if you can get it on sale!

. Probably the Best \$1-2 I have ever spent, the controls and simple, the custom song feature is a blast and I can rave without mates or leaving the house :D

I highly recommend this game if you have \$1-2 to spend!. This Game Is Awesome

- +Cool Geraphic
- +Various Kind Of Enemies
- +Nice Atmospher
- +Upgrades
- +cool gameplay

But It Also become boring After a while Because There is No Customazation And Special Abilities And In Some Part u Become Outnumber ,

I Hope Develoupers Creat Some Abilities to Spawn Some Friendly unit if they Do that The game become Even More Exciting

But Any Way This Game Is Worth To Pay 100%. Honestly the most frustrating thing is that you spend the time setting up your units, planning, building up resources and so on.

Yet, as soon as you come face to face with your opponent.. the game freezes?! No idea why. Maybe the game is incapable of supporting the insane amounts of sprites on screen with the bigger squads, but the game is not playable! Constant battle to even load the game and crashes non-stop during play.

WILL SAY THOUGH, INSANE AMOUNT HISTORICAL OF RESEARCH AND DETAIL HAS GONE INTO THIS. AMAZING FOR HISTORY NUTS!!!. A very good concept... Funny and quite unique... You will appreciate this more if you know how it feels like to struggle in daily life ahahaha. its awfull you're better off playing a beat em' up flash game than pay money for this
